Receiving requirements

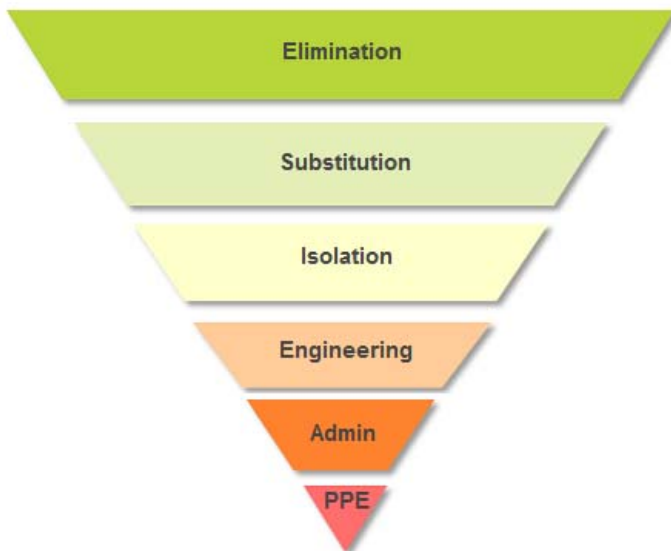

The 'Receiving Dangerous Goods Checklist' can be used to remind us what needs to be in place.

Handling, storage and segregation requirements

During **handling** tasks, it is important to wear **PPE**, follow the **Safety Data Sheet**, maintain good **hygiene** and use an appropriate **method** to move the dangerous goods to their storage location.

Main risk controls for **storage** of dangerous goods:

Segregation rules specify which dangerous goods classes must be kept separate

Prevent food products from being contaminated

Transport requirements

Additional transport requirements are checked using the '**Pre-Audit to Transport Dangerous Goods**' form.

- Condition of goods & vehicle
- Load restraint equipment
- Segregation of load
- Driver & vehicle licence
- Placard requirements
- Transport documentation
- Fire extinguisher requirements
- PPE requirements
- Traffic management equipment
- Work cover and required equipment

Where can I get more information?

Level 1 training	Introduction to Dangerous Goods and Hazardous Substances 
Level 2 training	Dangerous Goods & Hazardous Substances - Distribution & Receiving 

If your job role involves other interactions with dangerous goods or hazardous substances?

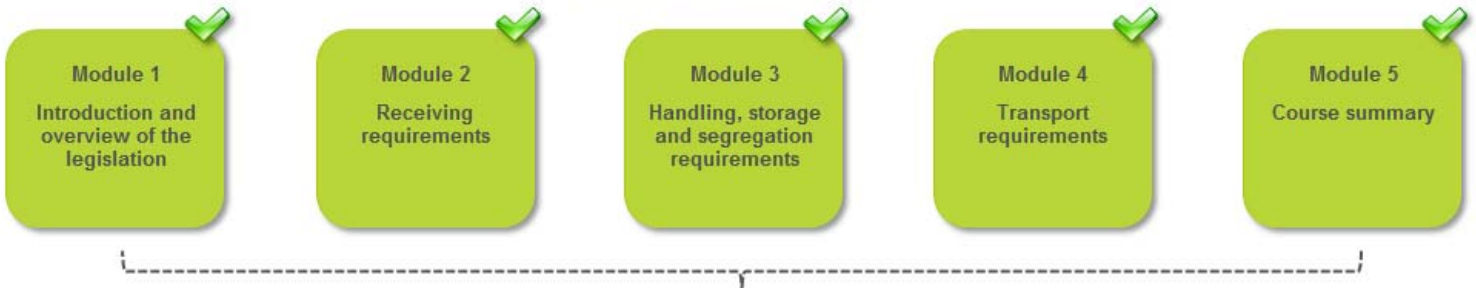

I have questions not covered in the training...

→ Just ask your supervisor or your site health and safety personnel

Module Summary

Congratulations! You have completed the Dangerous Goods and Hazardous Substances – Distribution & Receiving course.

Final Assessment Quiz
